Dead game, last update was over a year ago. No point in investing anymore seemed cool but I suppose its just another dead project.. Astounding art, really nice music (althoght it's a bit loud) and great concept!. I picked up this game, as did a friend, because we enjoyed Titan Quest and this seemed similar. Sadly, it was a major let down. The UI was clunky, the animations seemed worse and the game itself felt forced and unpolished. I'll never know what promise it might have had because I could only force myself to sit through about an Hour of the game. And I'm one of those gamers who will think nothing of dropping 20 hours into a game to follow a good story or explore an intresting world. This game sadly, was a total disapointment.. 30 dollar price tag is a bit of a joke for how "early access" this game is. At 10-15 bucks this game might be worth it, but at 30? Definitely not worth the price.

Played a handful of runner games with a coordinated (but new) group of friends, completely annihilated the Hunter each time.

Played many games as Hunter, completely steamrolled the runners each time. The average skill level of the playerbase is so low it's honestly difficult to tell what's unbalanced for who.

However, what I do know is that the weapon balancing is absolutely atrocious for the Hunter. There is zero reason to ADS with how awful the random spread is. Stack that on top of how mobile you and Runners are, I don't think there's any reason to ever ADS in this game.

The random spread even applies to being scoped in on the two sniper rifles, which is a baffling design decision. Sniper rifles are already quite bad in a game where both you and the Runners are highly mobile, and then they stack inaccuracy on top of that? There's literally zero reason to pick weapons outside of the shotgun(s) and the assault rifle. It's like they don't even play their own game.

Also, the FPS mechanics are pretty janky. It's like stepping back in time to Korean F2P shooters from the early 2000s. It's quite bad.

Can't recommend this at all, maybe if it drops on sale to 5-15 bucks. It's a neat idea but not that great in execution. The playerbase sucks at this game, so if you want an easy game to steamroll in, this might be it.. Not bad. Not good. Wish it was more challenging.

Why the Boss would stand up to Lucky Luciano over people he just met is beyond me.. it's an actual sport.. This game has been quite fun and even a tiny bit addicting. I will confess though, that I only bought it for the aspect of easy achievements. As much as this game is somewhat fun, it's a crap game. Horrible graphics, smallest screen resolution I've ever seen a Steam Game with, and for god sakes, the license and email look exactly how they'd look if they were written in a WORD DOCUMENT! Good day.

The YDNJ trivia series is great. I love them.. This is bad. Playable, but bad. Really bad.. worst game ever, when you try to play it says press any key, no matter what key you press it puts you back to the main menu. I bought this pack months ago and I didnt have any problem at all, i got eveyrhing that was listed in the pack, the booster, the heroes, the costume, etc

Is really good, and a tip, buy it when is in sale. Just finished the game and am left a bit bewildered. Feels like I lost a few chunks of plot somewhere in there, and am not sure if it was glitched away or just not put in. However, I did play through it in just 2 days so it IS worthy of recommendation. Movement reminded me of Syberia 3 - cumbersome. Animations, characters and VO - superb. Better pacing , faster movement, map, a inventory and a notebook would have helped alot to make sure you knew what was going on, and could review clues and the like. I feel like this game is some polish on the technical side, and some added functionality away from being great. I tried to google what was going on a few times, to see if anyone had posted some answers when I felt like I missed important bits. Meh...I love that people make decent adventure games, but this one should have baked just a wee bit longer before getting popped out of the oven.
